THE INNOVATORS OF COMFORT™

EKORNES®

The pleasure of comfort

Since 1934 we have had the pleasure of filling homes all around the world with comfort. This has made Stressless® one of the best known brands in the furniture industry. The passion for details and innovative solutions shared by all our employees, enables us to keep coming up with new systems that will give your body the best possible sitting experience, and at the same time provide your living room with an impressive appearance. This year's innovation, BalanceAdapt™, is nothing short of a quantum leap where comfort is concerned.

There are many reasons why our furniture is so comfortable. It has to do with the people, the choice of materials and all the innovative solutions we have put into production. The landscape that surrounds us also plays a big role in defining what we produce. The majestic peaks and endless fjords set our minds at ease and is the perfect medicine on the most stressful of days. If you have not visited the fjords yet, but want a taste, if ever so slight, we recommend giving Stressless® a try. It may very well be the closest you'll ever get to the bliss of pure comfort.

BalanceAdapt™: Our newest innovation.

In addition to all the other innovative Stressless® functions (see page 64), the BalanceAdapt™ system will provide you with a unique comfort experience. The system ensures perfectly balanced seating, as your sitting position adjusts to the movements of your body, without the help of levers or handles. This year we are proud to present two new sofas and two new chairs with BalanceAdapt™.

Maximum comfort

The smallest of movements is often what makes the difference between a good and a great sitting experience. With BalanceAdapt™ the sitting angle automatically adjusts to your body's every movement. It's all about finding the right balance, from head to toe, without the use of levers or handles. The subtle and soft rocking motion increases your comfort in any position, and also ensures that the sitting angle goes even further back. The recliner also has the Plus™ system, providing optimal support for your neck and lower back, and giving you a unique comfort experience.

Start your day with perfect comfort

There are times when one expects more from a piece of furniture. It must be comfortable for even the smallest member of the family. The integrated BalanceAdapt™-system makes sure all movements feel soft and comfortable, for active youngsters and yawning parents alike. This way the day gets off to a perfect start – for each and every one.

Stressless® View matches Stressless® Panorama perfectly, and will provide your living room with an elegant mix of soft comfort and tight lines.

Based on comfort

Stressless® View and Stressless® Skyline come with a brand new base; a combination of laminated beech and aluminum, delivered in seven different colors. You can easily insert an elevator-kit, providing an additional seating height of 1.25 inches. And with BalanceAdapt® elegantly integrated in the base, the soft and comfortable rocking movements will contribute to a sensation of comfort from the soles of your feet to the top of your head.

Individual comfort

Stressless® Metro craves attention, but also knows the fine art of suiting its surroundings. Choose this new furnishing solution, where friends and family can all get together, and everyone can still have a seat all to oneself. Combined with a stylish rotating base, fresh lines, and a new headrest pillow for optimal neck support on the high back model, the list of comfort demands is met in every way.

The Stressless® Urban glass table comes in two different sizes; a practical small table and a larger variant that among other things can be used as a coffee table. The table is custom made to match our recliners Stressless® Metro and Stressless® City. Even so, both recliners and tables match many of our Stressless® and Ekornes® sofas.

ErgoAdapt[®]

The built-in ErgoAdapt[®] system on the Stressless[®] E40, Stressless[®] E200 and E300 allows you to sink into its soft cushioning. This discreet tilting mechanism makes the sofa automatically adjust to your body, providing you with a perfect sitting angle or sleeping position.

The subtle movement of our flexible headrest is easily adjusted by a handgrip, making the sitting experience even better. The headrest can be used on existing Stressless[®] E200 and E300 units, and is easily mounted without tools. The Long Seat has its own specially adapted headrest with the same innovative functions.

ErgoAdapt®

From zero position to tilt position
 The new Stressless® ErgoAdapt® system automatically tilts the seat as you sit down – providing the perfect degree of comfort and support.

Lying down flat, no tilt
 When you lie down on the sofa, the seat stays completely flat, offering exquisite comfort and giving you full advantage of the oversized seat.

The Long Seat automatically tilts down, giving your legs perfect support when seated, while staying completely flat when you prefer to lie down.

Worth testing

You're the only one who knows what feels best for you. That is why we encourage all our customers to try a Stressless®. This ensures that you will find a recliner with the right size and firmness. We can guarantee that it will be time well spent. A Stressless® recliner is after all an investment for many years to come.

1

Can you adjust the headrest so that it lies flat when you recline?

2

Is your head supported comfortably as you lie down to read or watch TV?

Do you have the feeling that the seat back reclines sufficiently?

3

Does the chair provide good lumbar support in all positions?

4

Does the recliner feel stable and safe?

5

Are the height and width of the chair right for you?

8

Are you aware of how your entire body relaxes?

9

Is the ottoman positioned in the right place to give you maximum leg support?

10

Is the recliner complemented by a matching reclining sofa?

6

Does the gliding movement smoothly adjust to your body weight?

7

Do the chair and ottoman move with you as you shift positions?

A corner of possibilities

Some of our sofas come in both high back and low back options with individually adjustable seats. Whether you prefer sitting up a little straighter or you love leaning back, the Plus™-system will provide optimal support for your neck and lower back. In a Stressless® Arion you can easily curl up in the corner. It comes in many different configurations, and you can even create your own personal comfort corner.

Functional design

A functional living room provides an additional sensation of comfort. Place a Stressless® Legend and a Stressless® Magic in the same room, and you have a perfect combination. Extra soft cushions, elegant design, adjustable seats, and the freedom to choose between high or low backs on your sofa. In addition, the Stressless® Duo ottoman can be used as both a leg support and an additional seat. It can also be made into a small table – by placing the hidden wood plate on its top. And when the occasion demands a little extra space, you can place the ottomans under your Stressless® Duo table.

When comfort is at stake

What better follow-up to a great dinner, than an hour or two of friendly competition? The winner gets to stretch out on the sofa, whilst the loser clears the table and does the dishes. Stressless® Paradise comes in a high back and low back design. The Stressless® Dream recliner matches Stressless® Paradise perfectly. With so much at stake, one must be sure to keep both eyes on the prize, fingers ready to touch the remote, and ones back perfectly placed in the seat. The latter is ensured by the sofa. Who ends up victorious is up to you. May the best and luckiest competitor win.

Discover the secrets of personal comfort

The unique cushioning in our Stressless® recliners and sofas embraces and supports your body like nothing else. 40 years of innovation have brought us to a point where we wholeheartedly can say that our Stressless® recliners and sofas are the best on the market. One reason why we can take such a bold stance is that the manufacturing of every little component on a Stressless® takes place at our own factories, in the fjords of Norway.

- 1 The perforated foam is molded directly over the frame. The indentations in our new Comfort-Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
- 2 An additional pad of soft space-age foam ensures optimum comfort.
- 3 Super-soft polyester fiber cushions your body and ensures an attractive look.
- 4 Durable steel frame and flexo springs for superior resilience and continuous support.
- 5 Plus™ system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
- 6 Genuine top-grain leather or fabric covers the entire seat, for a luxurious look and feel.
- 7 Unique Stressless® Glide system automatically adjusts to your body weight.
- 8 Two-stem base adds superior stability.
- 9 For maximum mobility, swivel actions lets you easily turn 360°.

Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

The headrest adjusts automatically, so you can read and watch TV, even in a reclining position.

The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Stressless® Magic (M) and Stressless® Magic (L) Recliners are shown in Batic Snow/Wenge. Ekornes® Corner Table. Our complete range of models is shown on pages 68-75.

Comfort Zones™ give you a better seating comfort, as the indentations let you sink deeper into the seat and back of the recliner.

Easy-to-move ottoman features built-in Glide system that adjusts to your body movement for ultimate comfort.

Comfort is a matter of feeling good about yourself, just the way you are. That is why most of our Stressless® designs are available in two or three sizes. Our wish is for every unique individual to be able to experience unsurpassed relaxation. Choose a Stressless® that suits your size, and makes you feel well!

Ekornes® offers four categories of leather, In a selection of beautiful colours.

Batick

Paloma

Cori

Royalin

BATICK is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone color effect to liven up the surface. Batick is resistant to fading, although changes in color will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent durability and a reasonable price make Batick a good choice.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may, however, vary a little at some parts of the furniture, and also minor color nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy-duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

CORI is a corrected, pigment improved and grain embossed upholstery leather. Cori is somewhat thicker and has a larger pebbled grain than Batick. Most of its natural marks are removed. Also, some of the Cori colors have a two-tone color effect to liven up the surface. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent durability.

ROYALIN is the most exclusive of Ekornes's leather types, but also the most vulnerable. Royalin is a type of leather with natural pebbled grain and structure, and may have minor color nuances and some natural marks. This is characteristic for a natural material such as Royalin. A very light surface treatment provides a certain protection, but Royalin absorbs moisture easily, and is extra vulnerable to wear and tear, heat, sunlight, spills and perspiration. This requires greater care in use and more vulnerability to influence from direct contact with human skin (especially from neck/hair and hands). Royalin has the softness and a rich warm glow that characterize first-class furniture leather. Variances including grain pattern and color are an inherent feature within Royalin leather and are a natural mark of high quality.

Ekornes® upholstery leather

Ekornes is one of Europe's largest consumers of leather. We purchase the leather from selected tanneries all over the world. Our own inspectors take part in the leather selection, which is conducted in accordance with international norms for quality determination. The experience we have gained from this work is for your benefit when you buy Stressless® or Ekornes® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations on durability, and for the use and content of chemicals and other substances. We are cooperating with recognized international institutions in this line of business, to ensure that we are updated at all times with events relating to health, safety and the environment.

The leather for our furniture is a natural material that comes from cattle hides.

When the hide has gone through a tanning process and further processing to achieve the correct durability properties, it is called leather. One characteristic of a hide is that it is marked by nature, vegetation and the care the animal has been subjected to. Cattle spend most of their lives outdoors, and will therefore be marked by external influences like insect bits, tears, scars, wrinkles, stretch marks, etc.

The following are some of the properties of leather that you should be aware of:

Leather is a natural product and is a beautiful and lively material used in furniture making. Each hide is unique in its structure, appearance, nuance and size. Ekornes may use several hides when making your furniture. This, together with the leather's play of colors and natural marks, makes each piece of furniture unique. In time, the leather will age and gain patina. It is important that you are aware of one thing: although leather furniture can withstand a lot of wear and tear, its appearance will change with the years.

The following applies to all types of leather used by Ekornes:

Hide absorbs dyes differently and therefore the leather may have color nuances. These are due to dissimilarities and different fiber structures, which affect the coloring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are deep-dyed, but there could always be a deviation between the basic color of the hide (the color of the side that faces the upholstery side of the furniture), and the color of the grain side (the external side) i.e. the color of the outer layer. This is normal. It is possible to use the same basic color for leathers with different top colors.

Dyes and dyeing methods may vary between the different leather colors and leather qualities. Therefore, the basic color and the color of the top layer (which forms the wear layer and the final desired color of the finished product) of a given leather quality may differ.

Some of the leather dyes have a two-tone color effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one color. This applies in particular to areas of the furniture that are exposed to harder wear such as armrests, seat cushions and neck supports.

The top layer protects the leather and simplifies cleaning, but is nonetheless vulnerable to soiling and wear. If the top layer/top color is destroyed, the leather may deteriorate faster. Penetrating spills/damage/scratches are normally irreparable and may result in the top color changing character, cracking or peeling off.

Please note that denim clothing and jeans may leave color on the leather, which is difficult to remove without risking destruction of the top color of the leather. Light leather colors, in particular, are vulnerable to such color contamination.

All furniture leather sold by Ekornes is resistant to light, but changes in color may occur as a result of use and extensive exposure to light. Consequently, furniture should not be exposed to direct sunlight or direct heat from heaters and other sources of heat. Leather is vulnerable to exposure to oils from direct contact with human skin (especially of the neck and hands).

Remember: leather has a relatively long life-time, but can easily be destroyed by incorrect handling.

Fabrics

Our specially selected fabric collection meets the most severe requirements in the furniture trade. Stressless® fabrics are produced according to strict conditions with respect to nature; they are also prepared for heavy-duty use, light tolerance and flammability. Choose from all ranges in a wide selection of colors that match your interior.

Please note that color changes will occur with time, as a result of use and the effect of light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your chair or sofa, the fabric upholstery should be regularly cleaned.

Stressless® Leather and Fabric Care kits

To match the high quality of our furniture, Ekornes now offers its own leather and fabric (including micro-fiber) care series.

The Stressless® Leather Care kit (medium, large) and the Stressless® Leather Care Wipes contain a leather cleaner, a protection cream and wipes. For nurturing, and making the leather more resistant to stains, the protection cream should be applied to all leather surfaces when your recliner is new. For later treatment, in addition to regularly removing stains, we recommend that the leather is cleaned with the Stressless® Leather Cleaner at least every 6 months. Always apply protection cream after cleaning.

Please see www.ekornes.com for further information about maintaining your leather furniture.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and 'Ox cleaner'. This kit gives you everything you need to clean a piece of furniture in just minutes, without removing the fabric cover. For resistant stains, use the Fabric Cleaner together with the Stain Remover and 'Ox Cleaner'.

These are the only cleaners Ekornes will approve. Ekornes will decline all responsibility in cases where other products than those approved by Ekornes have been used to maintain your leather and fabric furniture.

The Stressless® wooden colors

Made from laminated European beech, a light-colored wood with an attractive grain, exceptionally suitable for staining in various colors. Also, the strength of the wood makes beech furniture extremely durable.

Choose legs

Several of our sofa models can be delivered with a range of different legs. Steel legs provides your sofa with a more sophisticated appearance, whilst wooden legs makes your living room appear warmer. No matter what you choose, comfort is ensured – that we can guarantee.

STRESSLESS® MODERN AND STRESSLESS® SOFT OTTOMAN

Our ottoman is ingenious in at least two ways. It has a built-in tilt system, which makes sure the angle of the ottoman is adapted to your sitting position. It also has room for all the extras, under its removable top. The ottoman comes in two sizes.

Functional tables designed for comfort and style

All of our tables are developed to serve a special purpose. Some of them are designed to fulfil the unique Stressless® comfort experience, and some of them to complement specific Stressless® sofa series. The sofa tables with wooden legs are made of high-quality toughened glass and beech, and are available in seven different wood colors to match your furnishing and interior style.

L: 50" W: 30 ¼" H: 19"

EKORNES® PEGASUS TABLE

The design complements the Pegasus collection with curved wood legs. A shelf beneath the tabletop is a good place to store newspapers, magazines and remote controls.

L: 51 ½" W: 27 ½" H: 19"

EKORNES® WINDSOR TABLE

Enhance the décor of your home with our Windsor table. It features sleek, simple lines with a shelf below, perfect for storing remotes, books and magazines. The Windsor table is designed to complement both the Windsor and Buckingham series.

W: 42 ½" D: 33 ¾" H: 17 ¼"

STRESSLESS® DUO TABLE

Made from high quality toughened glass with beech. Natural, or stained in the following colors: Mahogany, teak, cherry, brown, wenge and black. Add up to four Stressless Duo Ottomans and the result is the epitome of functional design.

W: 23 ½" H: 19 ½" D: 19 ½"

STRESSLESS® COFFEE TABLE

A flexible and cleverly designed table in stainless steel and glass, that fits perfectly above the seat of your sofa. Your snack, or beverage, is never more than an arm's length away. Stressless® Coffee table can also be used as a side table, and if you put two of them together they form an ingenious sofa table.

EKORNES® AND THE ENVIRONMENT

The objective of Ekornes is to accept environmental responsibility related to manufacturing, distribution and use of the company's products.

We will continue to implement initiatives in our factories that improve the internal and external environment, at the same time as we continue to select environmentally-friendly raw materials.

A sustainable manufacture of durable products will also be an objective in the development of our company.

The following core items shall be complied with in all parts of our activity:

- Ekornes shall appear as an environmentally-friendly enterprise. Our products shall cause the least possible impact on the environment.
- Ekornes has as its objective to keep the health risk at the workplaces at a minimum.
- Ekornes invests to avoid damage to the environment and injuries to health.
- Environmental information shall be generally available, for example through Environmental Product Declarations (EPD).
- Ekornes shall give objective and open information about how the company handles its environmental responsibility.

As an objective, Ekornes will continue to develop environmentally responsible methods in order to gain a competitive advantage ahead of our competitors.

Ekornes participates in the UN's Global compact.
